PCCOE | 06-01-2024 - Present

- Led technical initiatives and oversaw operations as the Technical Head of CSI Student Chapter at PCCOE.

PROJECTS

- **FreeProjects.com**

Next js, MongoDB

Dynamic platform facilitating project discovery, filtering, and rating. Connects users with project codes, member profiles, and feedback contribution, fostering collaborative engagement across institutes.

- **HireLink**

Next.js, MongoDB, Gemini

Revolutionary recruitment platform automates resume filtering and job matching for seamless hiring. AI-driven candidate shortlisting and real-time tracking streamline decision-making.

- **MovieApp**

React Native, TMDB Api

Created a comprehensive movie database app allowing users to search for movie information, explore actor profiles, and discover related films based on their search criteria.

- **WhatsApp Clone**

React Native, Firebase

A full-fledged WhatsApp clone with complete data retrieval.

- **Movie Recommender System.**

Python Machine Learning, Flask, Streamlit

A movie recommendation system leveraging data science and machine learning to suggest similar movies based on your search.

- **Zoo Management System.**

Java, JavaFX, JDBC, and MySQL.

Developed a comprehensive zoo management software includes modules for expense, salary management, and ticketing, simplifying administrative tasks for zoo managers.
